Re: Special Account #4

Please find enclosed Dr. Solomon Katz' letter of request, thesis proposal, and curriculum vitae for Evelyn J. Bowers. Ms. Bowers is a research assistant of Dr. Richard J. Hickey. She is also working as a consultant on Dr. Hickey's special project on air pollution. This information is sent to you in support of a request for \$2,500 for data analysis and related expenses to assist Ms. Bowers in completing her dissertation.

This request for funding through Special 4 is being made after conversations with Dr. Hickey. He considers the contribution of Ms. Bowers to the air pollution project as essential. She has worked with him on several research studies, co-authoring some 25 articles he has published. If funds are available to free her from the data analysis tasks, Dr. Hickey could utilize her expertise more fully on the air pollution project.

Dr. Hickey has indicated that he values the contribution Ms. Bowers can make to his current research. We are, therefore, asking you to approve a Special 4 funding to the Anthropology Department of the University of Pennsylvania for Evelyn Bowers with a designation that the funds be used for data analysis and related expenses.
